

WARRIOR WINGS January 2015: Veterans Administration-Supported Professional Pilot Degree Programs

Overview, Caveats & Disclaimer

This document was prepared for flight-inspired military personnel and veterans wishing to avail themselves of current [Post 9/11 GI Bill](#) professional pilot degree-earning opportunities. The information presented herein focuses on three major college attendance financial considerations: tuition, recurrent fees and flight training costs. Although not addressed in this document, eligible applicants might also be entitled to receive a [monthly housing allowance](#) and an annual stipend of up to \$1,000 for books and supplies.

Benefit eligibility is contingent on a number of Veterans Administration (VA) requirements including an honorable discharge for veterans and at least 90 days of specified active-duty service after September 10, 2001. Maximum benefits accrue to applicants with three or more years of qualifying active-duty service and are payable for up to three years. Military personnel and veteran (Mil/Vet) applicants that do not meet full (100%) Post 9/11 G.I. Bill benefit criteria, or those wishing to apply under earlier G.I. Bill provisions, should contact the institution's VA representatives for information applicable to their particular situations. (*Note: Listing in this document does not constitute a recommendation or programmatic quality assessment. Readers are also cautioned against making school selection decisions solely on the basis of the financial information presented in this work*)

Legend

Institution Name – As depicted in the school's website and official publications (*Note: Most entries are linked to the institution's aviation department website*)

Instn. Type – **Pub** = Public, **Pvt** = Private, **-C** = Commuting only, **-R** = Residential

Pro-Pilot Degree(s) – **A** = Associate (2-year) degree, **B** = Bachelor's (4-year) degree (*Note: If both 2- and 4-year degrees are offered, the 4-year columnar entries will apply*)

Annual Tuition & Fees:

Column A – Reported unadjusted (non- military/veteran) full-time tuition and fees (less room and board costs) for the 2014-2015 academic year. Public institution entries are hyphenated to show in-state and out-of-state charges respectively.

Sources: ⁱ = Institution contact, ⁿ = [National Center for Education Statistics](#) ^w = Institution website

Column B – Reported/calculated Mil/Vet full-time tuition and fees (less room and board costs) for the 2014-2015 academic year after VA reimbursement. Shown are maximum (100%) and minimum (40%) VA benefit tier range figures.

Entry Superscripts: ^r = Applicable to in-state residents only, ^y = Figure predicated on [Yellow Ribbon Program](#) support

(*Note: Beginning July 1, 2015 eligible veterans using GI Bill benefits at any public college or university, regardless of the individual's state of residence, will be charged the in-state tuition rate while living in the state where the school is located. If the veteran remains continuously enrolled at the institution, the in-state tuition rate would apply for the duration of coursework*)

Flight Training Courses (Airplane Category) – P = Private Pilot, C = Commercial Pilot, I = Instrument Rating, M = Multi-engine Rating, F = Flight Instructor, FI = Instrument Instructor, FM = Multi-engine Instructor (*Note: Optional/extra-cost courses are shown in parentheses*).

Flight Training Fees:

Column C – Estimated total unadjusted degree-required pilot training charges based on zero student flight experience at program commencement, current fuel prices and average Part 141 flight training times.

Column D – Estimated Mil/Vet degree-required pilot training charges. Shown are maximum (100%) and minimum (40%) VA benefit tier range figures.
